

BUSINESS SERVICING · OSBORNE PARK

YOUR WORK VEHICLE IS YOUR INCOME

If your ute or van is how you earn, you cannot afford it sitting in a workshop for a week, and you cannot afford dealership prices either. We look after Perth tradies and small businesses who need both.

DEALER LEVEL WORK WITHOUT DEALER PRICES

A lot of business owners stick with the dealership because they think they have to, to protect their warranty. You do not. An independent workshop can carry out logbook servicing to the manufacturer schedule and your new vehicle warranty stays intact, usually at a better price and with someone you can actually talk to.

LOCAL WORKSHOP

WHAT WE COVER

LOGBOOK SERVICING

To manufacturer schedule, stamped and recorded. Your new vehicle warranty stays intact.

BRAKES & SUSPENSION

Loaded utes and vans wear differently. We check for how the vehicle actually gets used.

BATTERIES & ELECTRICAL

Tested and replaced on the spot where we can, so you are not stranded.

PICK UP & DROP OFF

We can collect your vehicle and bring it back, so you do not lose half a day dropping it in.

REPAIRS & DIAGNOSTICS

We find the actual fault and fix the actual fault, and tell you what it will cost first.

AIR CONDITIONING

Regas, testing and repair, so the cab is bearable in February.

WHEELS & TYRES

Fitting, balancing and alignment to keep it straight and safe.

BREAKDOWN & TOWING

We run our own tow truck, so if you break down we can get you sorted without a middle man.

"So hard to find a good honest mechanic. Glad I have now."

GOOGLE REVIEW

HOW IT WORKS

01 GIVE US A CALL

Tell us what you drive and what is going on with it. We will give you a straight answer on whether it needs looking at.

02 BOOKED IN AROUND YOU

We work out a time that costs you the least amount of work, and we have courtesy vehicles available so you are not stuck without wheels.

03 QUOTED BEFORE WE START

You find out what it costs before the spanners come out, not after. If we find something else, you get a call.

04 BACK ON THE ROAD

Sorted properly the first time, with the work explained in plain english and a record kept for next time.

WHY BUSINESSES USE US

- Logbook servicing that protects your new vehicle warranty
- We tell you what the vehicle actually needs, not what pays us most
- Quoted up front, with a call before anything extra gets done
- Courtesy vehicles, or we can pick up and drop off your vehicle
- Broken down? We have our own tow truck, one call sorts it
- Booked around your work so you lose as little time as possible
- A local workshop you can talk to directly, not a service desk

WHAT IT COSTS

Pricing depends on what you drive and what it needs, so we will not quote you a number in a brochure and then change it when the vehicle is on the hoist. Tell us the make, model and roughly how many kilometres it has done and we will give you a straight price over the phone before you commit to anything.

BOOK YOUR WORK VEHICLE IN

Give Ash a call for a straight conversation about what your vehicle needs and what it will cost. No obligation, no sales pitch.
