

FLEET SERVICING · OSBORNE PARK

KEEP YOUR FLEET ON THE ROAD

When a vehicle is off the road, it is not just a repair bill. It is a job not done, a crew standing around and a customer waiting. We service business fleets in Osborne Park with that in mind.

DOWNTIME IS THE REAL COST

Most fleet servicing gets left until something goes wrong. By then you are off the road at the worst possible time, paying more than the job needed to cost. Scheduled servicing turns an emergency into a planned half day, and keeps your vehicles working when you need them.

LOCAL WORKSHOP

WHAT WE COVER

LOGBOOK SERVICING

Manufacturer schedule servicing that keeps new vehicle warranties intact. All makes and models.

BRAKES & SUSPENSION

Safety critical work on vehicles carrying loads and doing the kilometres.

BATTERIES & ELECTRICAL

Testing and replacement, so a flat battery does not write off a morning.

PICK UP & DROP OFF

We can collect the vehicle and return it, so your crew is not tied up running it back and forth.

REPAIRS & DIAGNOSTICS

Proper fault finding rather than guesswork, so the problem gets fixed once.

AIR CONDITIONING

Regas, testing and repair. Important for crews working through a Perth summer.

WHEELS & TYRES

Fitting, balancing and rotation to get the most out of a set.

BREAKDOWN & TOWING

Our own tow truck. If one of your vehicles goes down, we can get it off the road and into the workshop.

"Fantastic service from start to finish. Everything was explained clearly and the work was done efficiently. It is great to have found a mechanic we can trust."

GOOGLE REVIEW

HOW IT WORKS

01 HAVE A CHAT

Tell us what you run, how many vehicles and how hard they work. We will talk through what your fleet actually needs, not a package we want to sell.

02 SET A SCHEDULE

We map out servicing across your vehicles so they are not all off the road at once, and so nothing gets forgotten.

03 WE DO THE WORK

Booked in, sorted properly, and you get told straight if we find something. No surprise invoices. Courtesy vehicles are available so you are not a vehicle down.

04 RECORDS KEPT

Full service history for every vehicle, so you have it for resale, warranty and your own records.

WHY BUSINESSES USE US

- One workshop that knows your vehicles and their history
- Honest advice on what needs doing now and what can wait
- Courtesy vehicles, plus pick up and drop off if it suits you better
- Our own tow truck for breakdowns, so you are not waiting on a third party
- Servicing scheduled around your work, not ours
- All makes and models, from utes and vans to work cars
- Local, independent, and accountable to you rather than a head office

WHAT IT COSTS

There is no one size fits all price for a fleet, because no two fleets are the same. What you run, how many vehicles, how hard they work and how often they need looking at all change the number. Give us a call and we will give you a straight answer on what your fleet needs and what it will cost, with no obligation to go ahead.

LET'S TALK ABOUT YOUR FLEET

Every fleet is different, so pricing is too. Give Ash a call for a straight conversation about what your vehicles need and what it will cost.
